

GDP and Life Expectancies of Top 20 Countries - How they correlate to an extent

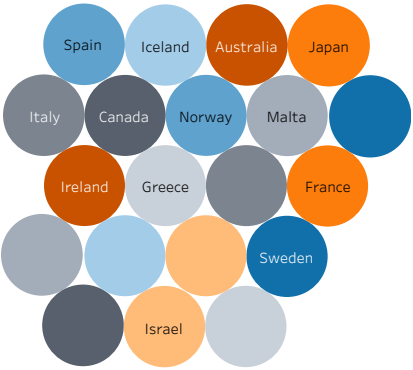

Top 20 Countries - GDP per capita

Top 20 Countries of GDP per capita and correlation to Life Expectancy

Hong Kong 84.900 1	Norway 82.400 14			Qatar
Switzerland 83.800 3	Ireland 82.300 16			
Singapore 83.600	Luxembourg 82.300 19		United States 79.100	Brunei

Top 20 Countries Life Expectancies

Summary:

Deducting from this analysis, there seems to be a correlation to a small extent as countries with the best GDP per capita coincide with the best Life Expectancies i.e. Singapore and Norway. However, with the same analysis made here, it can also be concluded, with evidence provided, that this isn't necessarily the case as you will see countries with the best GDP fall outside the top 20 bracket of Life Expectancy i.e. Netherlands, Israel and South Korea.
